

LAKE-MARK™ Self Adhesive Pipe Markers

Lake-Mark™ pipe markers are self sticking, durable, vinyl pipe markers that meet ANSI Standard A13.1-2007. Premium, laminated, pipe markers for use in chemical environments or outdoors are available upon request. The following information describes some of the common guidelines that affect pipe identification.

ANSI Standard A13.1-2007

The purpose of the standard is to “assist in identification of hazardous materials conveyed in piping systems and their hazards when released in the environment.”

“Pipes are defined as conduits for the transport of gasses, liquids, semi-liquids or fine particulate dust.”

Legend

- Direction of flow
- Brief, informative wording
- Sufficient details to identify the hazard

Visibility

- Close to valves
- Where pipes pass through walls or floors
- Near branches or changes in direction
- At frequent intervals in straight runs

Pipe Classification

Color Scheme

Arrow Tape
